**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of Group II, claims 10-26 in the reply filed on 13 June 2005 is acknowledged.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 10 and 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Dubin et al. US 2005/0167755.

Dubin et al. discloses a method of forming a gate for a FET including forming carbide forming metal and a carbon-containing layer and forming the metal carbide material by annealing (see Paragraph 0063) and Mo and Mo-Ru are considered carbide forming metals.

Claims 12-26 are allowed over the prior art.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
